**Evaluation of Exposure for Child  
Residents of Flin Flon and Creighton**

***INTRODUCTION FOR PARENTS/LEGAL GUARDIANS OF SAMPLE PARTICIPANTS:***

This interview is part of the Evaluation of Exposure to Arsenic, Lead and Mercury that is being conducted for the Child Residents of Flin Flon, Channing and Creighton. The purpose of the study is to measure the extent to which residents are exposed internally to arsenic, lead and mercury. I will be asking you general household demographic questions, as well as specific questions about the residents in your household.

***REMINDER ABOUT CONFIDENTIALITY***

***First I would like to remind you that:***

- if you do not want to answer a particular question.....you don't have to
- if you want to stop the interview at any time.....just say so
- any information that you share during this interview will be kept confidential and will not be shared with anyone who is not a member of the study team or your child's physician or designated physician, and only if you have given your consent.
- any personal information which might identify your child such as your child's name, address or telephone number will be removed from the data and will be replaced with a unique identification number
- a list linking the identification number with your child's name will be kept in a secure place, separate from your child's file
- the data (with the identifying information removed) will be securely stored in an electronic database which is only accessible to members of the study team and will be password-protected.

***Do you have any questions at this time?***

***Do you have any questions before we get started that we haven't already gone over with the consent forms?***

**Section I - Demographic Information**

1. How many people currently live in this residence?
2. Please list all people who live in this residence.  
*Start with oldest child participating in study, then other participating children (in descending order by age), then reference person, spouse, other non-participating children, and other residents.*
3. I now want to determine the household relationship of \_\_\_\_\_ to you.
4. For each household member, are they a child participating in the study, a child not participating in the study, or an adult?
5. Verify gender of each **child** participant
6. What is their date of birth (*note: we do not require birth dates for adults over 18*)?

**Section II - Adult Information**

***☞ This Section Applies to Adults and Youth over 12 years of age who are currently employed or work in the home ☞***

7. Has any member ever worked at a mine or a smelter?
